

Aayush Bharda

B.Tech in Artificial Intelligence and Data Science

Mumbai, Maharashtra | +91 9167541096 | aayushbharda999@gmail.com | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

Summary

Full stack developer with hands on experience building web applications using React Node.js Express and SQL and NoSQL databases
Strong foundation in data structures databases object oriented programming and REST APIs with a focus on building reliable user focused software solutions

Education

K J Somaiya Institute of Technology

B.Tech in Artificial Intelligence and Data Science | CGPA: 9.29/10.00 (Average of 6 sems)

Expected May 2027

Mumbai, Maharashtra

Technical Skills

Languages: C++, JavaScript, SQL

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js, REST APIs, JWT

Databases: PostgreSQL, MongoDB, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, Docker, Postman, VS Code

Projects

AI Habit Tracker | *React.js, Node.js, Express.js, MongoDB*

- Developed a full stack habit tracking platform with personalized recommendations, analytics dashboards, and 21-day habit challenges.
- Designed MongoDB collections for users, habits, challenges, analytics, and recommendations to support structured application workflows.
- Built REST APIs with JWT authentication for habit management, challenge tracking, progress monitoring, and dashboard analytics.
- Developed interactive analytics dashboards using Chart.js to visualize weekly and monthly user progress.

E-Sanjeevani — AI-Powered Telemedicine Platform | *React.js, Node.js, Express.js, PostgreSQL, Docker*

- Contributed to a full stack telemedicine platform supporting doctor-patient consultation workflows, appointment booking, and AI-assisted symptom triage.
- Designed and implemented PostgreSQL database structures for users, doctor profiles, consultations, availability, appointments, and medical records with relational constraints and indexing.
- Developed REST APIs for authentication, appointment scheduling, doctor verification, and consultation workflows.
- Implemented role-based JWT authentication and authorization for patient and doctor access control.

Certifications and Achievements

- **NPTEL Elite:** Data Mining for Decision Making, IIT Madras.
- **Node.js — Beginner to Advance with Projects**, Udemy.
- **React and Redux Certification Test**, KnowledgeGate.
- Solved **150+** LeetCode problems across Data Structures and Algorithms.
- **700+** GitHub contributions across full-stack and AI projects.

Extracurricular Activities

- **Official Member**, K J Somaiya Institute of Technology Cricket Team; represented the institute in inter-college cricket tournaments, demonstrating teamwork, communication, leadership, and decision-making.
